ORDERING SPECIALTY DRUGS WITH YOUR WELLMARK HEALTH PLAN: Wellmark understands that when you have a chronic or complex disease, having a convenient, cost-efficient way to access your specialty drugs is important.

Where do I get my specialty drugs?

You can order specialty drugs through one of two specialty pharmacies: Hy-Vee Pharmacy Solutions or CVS/caremark. Your prescription will be delivered to your home or office. In some areas, Hy-Vee Pharmacy Solutions and CVS/caremark can deliver your specialty prescription to your local Hy-Vee or CVS/caremark for pick up or to have the store pharmacist administer the medicine. Both pharmacies are experts that can help deliver and manage your specialty drugs.

How do I know if I take a specialty drug?

Specialty drugs are prescription medications that require special handling, administration or monitoring. These drugs are used to treat complex, chronic and often costly conditions, such as multiple sclerosis, rheumatoid arthritis, hepatitis C and hemophilia.

If you are unsure whether your prescription falls into the “specialty drug” category, simply:

1. Go to Wellmark.com
2. Click on the Health & Wellness tab
3. Select Drug Information and then Wellmark Drug List
4. Select Specialty Drug List and search by drug name
